3. DIRECTOR'S REPORT

When the Companies Act 71 of 2008 ("Companies Act") came into operation and the old Memorandum and Articles of Association was replaced with a Mol drafted in terms of the Companies Act and filed with the Companies and Intellectual Property Commission (CIPC), the Board envisaged that future amendments would be considered based on changes in the industry, regulatory framework, operational procedures and the ever changing landscape and developments within the industry. The Board has reviewed the Company's needs and requirements relating to the provisions of the Mol, the definition of the "B" class shares, the Use Agreement and as a result thereof has agreed to propose to the members that, the definition of the "A" class shares be amended bringing it in line with current practice in the industry and that a new Use Agreement regulating the relationship between the "A" class Shareholder and Company is formalised and the Mol be amended in line with the proposals above to make provision for these specific aspects that will make the administration of the Company more efficient and introduce clear rights and obligations for the "A" Shareholder.

These amendments are in line with current practices and specific requests from the South African Revenue Services in the industry in formalising each class of shares Use Agreement to avoid complications at a later stage.

The effect of the amendments, if accepted, will be that the Company's Mol is amended in accordance with the Resolutions and tabled documentation.

The Chair confirmed the details included in the Director's Report and as there were no questions raised the meeting proposed that the Special Resolutions be passed.

4. RESOLUTIONS

On a show of hands the following Resolutions were unanimously passed:

4.1 SPECIAL RESOLUTION 1:
